## New York Stock Market

New York, May 15.—Trading in stocks was reduced to a minimum today, and prices berely moved through the session. Wall Street passed the day in awaiting word from Washington in regard to decisions by the Supreme Court in the Standard Oll and American Tobacco cases. As this was one of the two days on which the decision might be announced, prior to the adjustment of the source. the two days on which the decisions might be amounced, prior to the adjournment of the court for the summer recess, it was believed generally that there was a strong possibility that there was a strong possibility that that action might be taken to-day in these cases. The tension was not relieved during the day, no definite word laving been received from Washington at the close. Business was restricted to the smallest total for some time, but the market betrayed no nervousness, and the undertone was distinctly firm.

Thorough preparations had been made in the way of reduction of speculative.

Thorough preparations had been made in the way of reduction of speculative commitments for the rendition of decisions, and the market appeared to be braced to resist attack, should one be made. A feature of the trading was the scant supply of stocks, even in the Issues in which there is always an active speculative interest. This was especially noticeable in the late afternoon, when prices rose fractionally. Canadian Pacific moved up more than a point. Union Pacific made the best showing of the Western roads, advancing substantially in response to a steady inquiry, which was reported to come in part at least from Parls. Buying of the Erie issue, which has been in progress for several days, was resumed to-day, and Pennsylvania continued its downward movement. The latter stock downward movement to latter stock touched its lowest price since 1907 Warrants for the allotment of new stock have been forwarded to shareholders, and it is supposed that much of the supply of stock which has depressed the price lately has resulted from sales against the stockholders "rights."

Statistics of imports for April revealed the expected falling off in values, which is ascribed largely to the consolidated at all ports—Net receipts 12-50 to the consolidated at all ports—Net receipts 12-50 to the consolidated at all ports—Net receipts 12-50 to the constitution of the consolidated at all ports—Net receipts 12-50 to th

Statistics of imports for April revealed the expected falling off in values, which is ascribed largely to the possibility of changes in the tariff The decrease amounted to \$13,000,000, and although exports fell off heavily, there was an excess of exports of \$37, \$75,000, against an excess of emports in April of lest year of \$854,000. The April statement testifies again to the great change for the better in the foreign trade position of this country, resulting in the accumulation of huge credit balances abroad during the past few months.

It would be discouraging to issue invitation after invitation and never have one accepted, and particularly so when they are given with all possible cordiality.

We are glad, however, to say that we have a number of favorable responses to our invitations to open personal and inactive accounts, and the best part of it all is that our patrons express themselves as pleased. We can in the same manner also please YOU.
